Journal of Microbiological Methods 28 (1997) 237–238

Journal of Microbiological Methods

Contents of Volume 28

No. 1, January 1997

MOMP-based PCR reveals presence of *Chlamydia pneumoniae* DNA in respiratory and serum samples of patients with acute *C. pneumoniae*-associated infections
B.R. Naidu, Y.-F. Ngeow and T. Pang (Malaysia) 1

Electroelution to remove humic compounds from soil DNA and RNA extracts
D.P. Chandler, R.W. Schreckhise, J.L. Smith and H. Bolton Jr. (USA) 11

A new protocol for antimicrobial testing of oils
M.D. Smith and P.L. Navilliat (USA) 21

A rapid method for creating species-specific gene probes for methylotrophic bacteria
C.G. Gliesche, M. Menzel and A. Fesefeldt (Germany) 25

Viability staining and flow cytometric detection of *Listeria monocytogenes*
C. Nexmann Jacobsen, J. Rasmussen and M. Jakobsen (Denmark) 35

A method for the detection and quantitation of PCR template in environmental samples by high performance liquid chromatography
E.M. Marlowe, K.L. Josephson, R.M. Miller and I.L. Pepper (USA) 45

Direct extraction of catalytic proteins from natural microbial communities
O.A. Ogunseitan (USA) 55

Detection, identification and semi-quantification of malaria parasites by NASBA amplification of small subunit ribosomal RNA sequences
H.L. Smits, G.C. Gussenhoven, W. Terpstra, R.A.F. Schukkink, B. van Gemen and T. van Gool (Netherlands) 65

Studies on the interaction of *staphylococcus aureus* and *staphylococcus epidermidis* with fibronectin using surface plasmon resonance (BIAcore)
S.D. Holmes, K. May, V. Johansson, F. Markey and I.A. Critchley (UK, Sweden) 77

A simple dot immunoassay for detecting antibodies to the lipopolysaccharide of Verocytotoxin-producing *Escherichia coli* in patients with haemolytic uraemic syndrome
H. Chart and B. Rowe (UK) 85

Notes to Authors

No. 2, February 1997

Research Papers

Effect of the growth medium on the cellular fatty acid composition of aeromonads: consequences for the chemotaxonomic differentiation of DNA hybridization groups in the genus *Aeromonas*
G. Huys, P. Kämpfer, M. Vancanneyt, R. Coopman, P. Janssen and K. Kersters (Belgium, Germany) 89

A semi-quantitative method for measuring *Cryptosporidium parvum* infection using polymerase chain reaction
M. Jenkins, J. Trout and R. Fayer (USA) 99

A comparison of the micromethods API Staph and ID32 STAPH in the identification of coagulase-negative staphylococci isolated from sheep
A.R. Burriel (UK) 109

Identification of isoprenoid quinones by frit-FAB liquid chromatography–mass spectrometry for the chemotaxonomy of micro-organisms
M. Nishijima, M. Araki-Sakai and H. Sano (Japan) 113

Improved procedure for the isolation and purification of lipoarabinomannan from *Mycobacterium bovis* strain AN5
W.B. Severn, A.M. Jones, R. Kittelberger, G.W. de Lisle and P.H. Atkinson (New Zealand) 123

Chromosome walking in *Dictyostelium*: an application of the single specific primer PCR
M.P. Koonce (USA) 131

Improvement of *Mycobacterium tuberculosis* detection in clinical samples using DNA purified by glass matrix
M.L.R. Rossetti, S.B. Jardim, V. de F.S. Rodrigues, A.R. Moura, H. Oliveira and A. Zaha (Brasil) 139

Chemical analysis of isolated cell walls of Gram-positive bacteria and determination of the cell wall to cell mass ratio
A. van der Wal, W. Norde, B. Bendinger, A.J.B. Zehnder and J. Lyklema (The Netherlands, Germany) 147

Notes to Authors

No. 3, March 1997

Research Papers

Removal of PCR inhibitors from human faecal samples through the use of an aqueous two-phase system for sample preparation prior to PCR
P.-G. Lantz, M. Matsson, T. Wadström and P. Rådström (Sweden) 159

Fluorescent probes for wall porosity and membrane integrity in filamentous fungi
S. Brul, J. Nussbaum and S.K. Dielbandhoesing (The Netherlands) 169

Outbreak of typhoid fever in a non-endemic area: comparison of three molecular typing methods
E. Gruner, M. Flepp, U. Gabathuler, K.L. Thong and M. Altwegg (Switzerland, Malaysia) 179

Chemotaxonomic differentiation between the *Bacillus cereus* group and *Bacillus subtilis* by phospholipid extracts analyzed with electrospray ionization tandem mass spectrometry
G.E. Black, A.P. Snyder and K.S. Heroux (USA) 187

Method on multiwell plates for the evaluation of the antimicrobial activity of resin acid derivatives
S. Savluchinske Feio, J. Carlos Roseiro, B. Gigante and M.J. Marcelo-Curto (Portugal) 201

A species-specific bacterial productivity method using immunomagnetic separation and radiotracer experiments
D.G. Bard and B.B. Ward (USA) 207

Applications of multilocus enzyme electrophoresis in medical microbiology
P. Boerlin (Canada) 221
